To Add a New PDF

1.) **Click to open the control panel**

2.) **Name your PDF and enter the URL where it's located**

You can only use PDFs that are stored somewhere online. (We don't store the files, we only link to them.) The easiest kind of link is a Google Drive shareable link. Open the Info Panel to read more.

Once you've added a PDF, you can add it onto an Avatar. That PDF will be displayed in all Dice Rooms where you use that Avatar. Navigate to the Profile/Avatars page to start.

To help you declutter your list of PDFs, you can Archive them. An Archived PDF is not deleted, but is hidden on this page (and unable to be attached to new Avatars). If an Avatar has a PDF that gets archived, the PDF is still attached to the Avatar until you choose to remove it.

Lastly, we originally conceived of these PDFs as Character Sheets. But, *any* PDF you link in will be displayed. E.g. If a GM merges a bunch of PDFs of all of their NPCs, s/he can have that PDF in the Character Sheet tab.
